

SURLY®

1 x 1™ Frameset

Nobody wants to spend a bunch of cash on a single-speed...and why should they? To do so is contrary to the whole spirit of the single-speed experience. At Surly, we have known this for years and are continuing to offer our excellent 1x1 single-speed frameset. The 1x1 features a beefy, double-butted 100% cro-moly suspension-corrected frame and 1-1/8" hard fork with very nice black or white powder coating and cool white decals.

The motivations to purchase a 1x1 are endless. Maybe you need a derby-rated steed. Maybe your financial sensibilities have kicked into overdrive at the sight of thick 4130 steel for a price you can justify. Perhaps the wide, curvy stays tempt you to try stuffing in some flat-trackin' skins. Maybe you can't stomach the extra twelve cents per gallon for premium, or maybe you just wanna try something new. Whatever the reason, we're sure you will appreciate the form, function, and value of the 1x1 as much as we do.

How does it ride? Take a look at our detailed geometry chart and you'll see our design is, well, regular. Take the 1x1 for a spin and you'll find that it merely "rides like a bike" - leaving you right at home to forget about the machine and enjoy the ride. The 1x1 rides so nice you won't notice it (you 1x1 owners, who have written, know what we're talkin' about).

The 1x1 is available in x-small, small, medium, large, and x-large sizes. Designed by single-speeders for single-speeders. As with all things Surly, you can't go wrong. Keep lookin' our way for more good deals on tough cro-moly bikes, framesets, and unique components.

1x1 Specifications:

Tubing: 100% Surly proprietary 4130 cro-moly steel. Main triangle is double-butted. TIG welded

Rear dropouts: Investment cast Surly track dropouts, spaced 135mm apart

* Measurements use tire with diameter of 676 mm (Tioga™ 2.1 DH), and taken from middle of top-tube to level ground.

SERIAL NUMBER:

Get a pen and write down the serial number of your Surly immediately. The number is stamped into the bottom of the bottom bracket shell. Having this number is imperative if your bike ever gets stolen or if you ever have questions about your frame... we are constantly improving our products and sometimes the serial number is the only way to tell one generation of product from another.

LIMITED WARRANTY:

Surly frames and forks are guaranteed to be free from manufacturing defects for three years from the original date of purchase. What this means is that if we screwed up something in the manufacturing process that resulted in the premature failure of the product, we'll fix or replace it at our discretion. This warranty is for the original buyer of the product and is not transferable. It should go without saying that we won't even consider your warranty problem without a dated proof-of-purchase.

What this warranty doesn't cover is damage resulting from any sort of riding other than "normal" riding, and the inevitable wear and tear resulting from "normal" use. Surly products are built to be used vigorously and we wouldn't expect you to treat them gently, but we can't be responsible for the inherent danger to body and property you face each time you throw your leg over the top tube. We're hip to the "just riding along" phenomenon - and frankly, we're just not having it.

Sorry, the paintjob isn't covered, nor is any damage that happens to you or your other components as a result of any failure of one of our products. Lastly, if you modify or neglect our products we can't be responsible for them or what might happen to you while you're using them. We hate to spell it out, but hey, it's the 21st Century. We're known to back up our products, but we've seen too many peoples' parts come back to us that were not defective and did not meet our warranty guidelines. Save your self some time and shipping money by reading this and making a decision for yourself. If you and your shop think your Surly product is indeed worthy of a warranty inspection, please return the product to the original place of purchase, accompanied by a sales receipt. In the unlikely event that this is not possible, call or email us and we'll do our best to get you riding again.
