Steamroller™ Frameset

A steamroller has the ability to flatten anything in its path, which is exactly how you'll feel the first time you take our Surly Steamroller fixed-gear for a twirl. Unstoppable. Euphoric. Happy. If you haven't ridden 'fixed' before, you might even feel a little bit scared.

It was designed specifically to give you the ideal foundation for a pure and unadulterated fixed-gear bicycle. Some will see the Steamroller and think "messenger", while others will automatically think "track". We hope you'll think about those two, plus "coffee shop", "watering hole", "commuter", "urban assault", "double century" and whatever else. What you do with it is up to you. We can only hope you won't let your preconceived notions about fixed-gear bikes impair your ability to realize the possibilities of the Steamroller frame. The only thing it wasn't designed to do is coast. Although, if you decide to strap a coaster brake out back, we won't spoil your plans. Do what you like, because as with all Surly products, this frameset is merely another platform to expand your horizons and bring your rides to a new or different level of enjoyment.

Since reliable freewheeling technology evolved decades ago, folks have ridden fixed gears by choice, not out of necessity. We won't try to convince you that riding 'fixed' is better or special or why you should try it; you'll have to determine that for yourself. Gee, the Steamroller just might change your life (if this happens please call us)!

The Steamroller geometry, tubing choices and features (or lack thereof) are deliberate in our quest to bring you a balance of pure aesthetics and a ride that is aggressive enough to be quick, exciting and purposeful, yet just mellow enough to be ridden all day long in comfort. We gotta point out the nice fork crown. It's even drilled for a standard-reach safety brake, should you opt for one. The seatstay bridge is drilled for a standard-reach brake as well, though there are no housing stops.

Designed by fixed-gear riders for fixed-gear riders.

Steamroller Specifications:

Tubing: 100% Surly proprietary 4130 cro-moly steel. Main triangle is double-butted. TIG welded

Rear dropouts: Investment cast Surly track dropouts, spaced 120mm apart

Braze-ons: None, baby. Pure. OK, we put one set of water-bottle mounts on the seat tube 'cause we're not camels

Seatpost diameter: 27.2mm

Seatpost clamp diameter: 30.0mm Surly Constrictor, included

Headset: 1-1/8" threadless

Bottom bracket shell: 68mm wide, threaded English 1.37x24t

Tire clearance: Proprietary FFF (Fatties Fit Fine) chainstays and our custom fork give room for tires up to 700x38c with fender clearance left over (P.S. - use clip-on fenders!!)

Chainring clearance: Heavy manipulation of the FFF stay gives room for a 50t ring while maintaining chainline. Track crank compatible.

Weight: 56cm = 4.5 lbs. (2.0 kg) Fork - uncut = 1.98 lbs. (.90 kg)

GEOMETRY:

* Measurements use tire with outer diameter of 682 (700c x 28), and taken from middle of top-tube to level ground.

SERIAL NUMBER:

Get a pen and write down the serial number of your Surly immediately. The number is stamped into the bottom of the bottom bracket shell. Having this number is imperative if your bike ever gets stolen or if you ever have questions about your frame... we are constantly improving our products and sometimes the serial number is the only way to tell one generation of product from another.

LIMITED WARRANTY:

Surly frames and forks are guaranteed to be free from manufacturing defects for three years from the original date of purchase. What this means is that if we screwed up something in the manufacturing process that resulted in the premature failure of the product, we'll fix or replace it at our discretion. This warranty is for the original buyer of the product and is not transferable. It should go without saying that we won't even consider your warranty problem without a dated proof-of-purchase.

What this warranty doesn't cover is damage resulting from any sort of riding other than "normal" riding, and the inevitable wear and tear resulting from "normal" use. Surly products are built to be used vigorously and we wouldn't expect you to treat them gently, but we can't be responsible for the inherent danger to body and property you face each time you throw your leg over the top tube. We're hip to the "just riding along" phenomenon - and frankly, we're just not having it.

Sorry, the paintjob isn't covered, nor is any damage that happens to you or your other components as a result of any failure of one of our products. Lastly, if you modify or neglect our products we can't be responsible for them or what might happen to you while you're using them. We hate to spell it out, but hey, it's the 21st Century. We're known to back up our products, but we've seen too many peoples' parts come back to us that were not defective and did not meet our warranty guidelines. Save your self some time and shipping money by reading this and making a decision for yourself. If you and your shop think your Surly product is indeed worthy of a warranty inspection, please return the product to the original place of purchase, accompanied by a sales receipt. In the unlikely event that this is not possible, call or email us and we'll do our best to get you riding again.
