Petite Porteur House Bag Compatibility and Intended Use

The Petite Porteur House Bag was designed to fit our 8-Pack Rack and has a maximum load capacity of 30 pounds. The versatile strap system also allows the bag to attach to many other porteur-style racks. Check with your bike shop or rack manufacturer for exact compatibility.

⚠️WARNING: Do not exceed the maximum cargo rating of your particular rack model. Exceeding the cargo limit of your rack could cause the rack to fail resulting in serious injury. Check rack manufacturer's specs to determine the maximum cargo weight limit of your rack.

Installation of the Petite Porteur House Bag

⚠️WARNING: Entanglement of your cargo, bag, or the straps in your wheel could stop the rotation of the wheel causing a loss of control or crash that could lead to serious injury. The buckle should make a noticeable "click" when properly buckled. Pull on the closure straps to ensure that it is properly buckled.

1. With your bicycle securely standing upright, place the Petite Porteur House Bag on top of the rack platform with the single pocket side of the bag facing forward (Figure 1).
2. Secure Velcro straps and pocket closure straps around the rack platform tubes and back on to the bag, securing the bag to your rack (Figure 2).
