SURLY BIKES™
good single-speed stuff. Cheap.
1x1™ TORSION BAR:
15° OF FLAT-TRACKIN' FUN!
**1x1™ FRAMESET**

Nobody wants to spend a bunch of cash on a single-speed... and why should they? To do so is contrary to the whole spirit of the single-speed experience. At SURLY™ we recognize this and we’re offering our excellent 1x1™ single-speed frameset—a beefy, double-butted 100% Cro-Mo suspension-corrected frame and rigid fork with very nice black powdercoating and cool white decals. The geometry is, well, regular. Take this “Rat Ride” for a spin and you’ll find that it “rides like a bike.” And isn’t that what really matters? Our proprietary FFE™ (fatties fit fine) chainstays give you room for the biggest meats you can find with plenty of mud clearance left over. Horizontal dropouts spaced 135mm apart do the job out back. The 1x1™ frame set is designed by single-speeders for single-speeders.

Available in small (16"), medium (18"), or large (20") sizes.

*seatpost o.d. = 27.2mm seat clamp o.d. = 30.0mm*

**1x1™ SINGLE-SPEED HUBS**

When the bandwagon rolls through your town, be ready with the new 1x1™ single-speed hubs. You’ll be confident in your derby abilities rolling on this pair of rugged hubs. The 1x1™ single-speed hubs are forged and CNC-machined from 6061 aluminum and feature 4130 Cro-Mo solid axles, spinning on sealed cartridge bearings. The 135mm-spaced rear hub allows the use of BMX freewheels and as an added bonus, it’s threaded on each side for the convenience of quick gear changes. The front hub is 100mm spaced, and the matched pair is available in black or silver. (32°) Both feature the handsome 1x1™ laser-etched logo.

**1x1™ TORSION BAR**

Made for us by NITTO®, these wide, flat, 4130 Cro-Mo bruisers will give you a distinct advantage in any derby situation. With a 15° bend, and 24.5" width, they’re also mighty comfortable in that laid-back single way. Get ready to flat track!

1x1™ BLOWERDRIVE

The 1x1™ Blowerdrive is a one-piece chainring spider and trials-style bashguard that mounts directly onto Shimano’s popular Deore LX M569 and Deore XT M739 splined crankarms. This extremely durable and uniquely styled unit’s coolest feature is its ability to fit 74mm, 94mm, or 110mm BCD chainrings -- no more gear limitations due to poor freewheel selections, and no need to buy a bunch of new chainrings to experiment with strange gear combinations. We bet there’s stuff hanging on your bench that will bolt right on. The Blowerdrive’s integrated bashguard is “gnarled” for extra grip when bushwhacker mode is on, and will protect chainring up to 36 teeth. Blowerdrives include chainring hardware and look pretty tough, as well. Available in black or silver.

1x1™ SINGLEATOR 2001

Midwest single-speed legend Pete Geigle developed the 1x1™ Singleator so you single-speed virgins could taste the pure mountain biking experience without spending too much cash. Installing horizontal dropouts on your frame can be difficult and/or expensive, particularly if your steed is of the aluminum variety. The Singleator mounts right up to your derailleur hanger and provides a simple, effective, and adjustable means of tensioning the excess chain slack found in vertical dropout single-speed drive trains. The Singleator 2001 represents the second generation of this highly evolved function-specific product. Featured on the 2001: triple sealed reversible spring with greater spring tension and wrap capacity, larger cog capacity, chain-rejection protection, fully adjustable chain line, floating tension pulley, and a stainless steel pivot bushing. Stop being so damn serious... get yourself a Singleator 2001, lighten up and give the single lifestyle a try. Available in black, silver, or red.
